Report of Principal and School Improvement Council

Crestwood High School serves a diverse population that comes from rural areas, the suburbs of Sumter, and Shaw Air Force Base. We meet the needs of our students by providing a wide range of educational opportunities incorporating both traditional teaching strategies and innovative instructional techniques to engage the learner. Crestwood students have access to additional educational opportunities through dual credit college courses that are offered on the school campus to qualified seniors and juniors. They also have access to the vocational courses at the Sumter County Career Center. We are a part of the High Schools That Work initiative and are also in the process of providing Common Core standards training for our staff. Implementation of Common Core standards will both enable our students to compete with greater success on national and international levels and simplify any transfers the students may make from district to district or from state to state.

As part of our ongoing improvement initiative, we have implemented the Knights' Round Table, a forty-five minute block each day devoted to literacy, special tutorials, credit recovery, and other activities. In addition, we have two career specialists to help guide the students in making informed decisions about the future.

Crestwood won a Palmetto Gold award for excellence and another Palmetto Gold award for narrowing the achievement gap for minorities, as announced during the 2011-2012 school year. In addition, we were awarded a \$245,000 grant for innovation in serving at-risk students. Our students have gained recognition through competitions on the local, state, national, and international levels, winning awards in academics as well as co-curricular and athletic activities. The entire school program reflects the school mission statement, "Crestwood High School: Keeping Academics and Citizenship First and Foremost."

ESEA/Federal Accountability Rating System

In July 2012, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/eSEA/> or request this information from your child's district or school.
